

Assistant Professor (Engineering Management)

Institution:

[Eastern Michigan University](#)

Location:

Ypsilanti, MI

Category:

Faculty - Engineering - Other Engineering

Posted:

12/06/2015

Type:

Full Time

The School of Engineering Technology at Eastern Michigan University is accepting applications for a tenure-track position at the assistant professor level for our Engineering Management master's degree program to start August 2016. The candidate must have:

- (a) a minimum of 2 years relevant professional engineering management experience in the private or public sector;
- (b) a minimum of 2 years full-time university level teaching experience in a related field; and
- (c) a PhD's degree in mechanical engineering, industrial engineering or engineering management (with a bachelors and/or master's degree in engineering from an ABET-accredited school);
- (d) excellent written and oral communication skills;
- (e) evidence of scholarly research activity and commitment to an externally funded research program.

Preferred candidates will have experience teaching graduate-level engineering management classes and have online teaching experience. Teaching of graduate level online courses and on-campus and off-campus lecture and laboratory classes will be required. In addition to teaching, the successful candidate will advise graduate students, have an active scholarly agenda, guide research projects, and participate in academic service activities. PI92459670
