Bernard R. Sarchet Endowed Professorship in Engineering Management

Engineering Management and Systems Engineering

Missouri University of Science and Technology

(Position 00083379, see <https://hr.mst.edu/careers/>)

The Engineering Management and Systems Engineering Department at Missouri University of Science and Technology in Rolla, Missouri seeks nominations and applications for the Bernard R. Sarchet Endowed Professorship in Engineering Management. This endowed professorship is named in honor of Professor Sarchet who founded the engineering management program in Rolla and is widely recognized as the founder of the academic field of engineering management. Professor Sarchet was also the co-founder of the American Society of Engineering Management.

The successful candidate will have exhibited the ability to build and maintain a successful externally funded research program and a strong record of scholarly publications in internationally recognized journals, including those with a focus on engineering management, systems engineering, industrial engineering, management of technology, program management, strategic management, supply chain management, and operations. Superior communication and interpersonal skills, leadership capabilities in engineering management at the national level, the ability to lead collaborative and interdisciplinary research, and the ability to motivate and inspire undergraduate and graduate students are also required attributes. Practical technical management experience will be considered an important asset. A PhD in a related field is required along with at least one degree in engineering, hard science, or applied mathematics. The position provides an attractive start-up package and annual stipend in addition to a competitive salary. The planned start date for appointment is fall semester 2023.

Interested candidates should apply at <https://hr.mst.edu/careers/>. The application materials should include a current curriculum vitae, a statement of research and teaching interest and goals, and complete information for five references. Review of applicants will begin on November 30th, 2022 and will continue until the position is filled. The application start date for this position is August 2023. Persons selected for the position may be required to provide verification, prior to employment, of the credentials stated in application materials submitted. The final candidate is required to provide official transcript(s) for the terminal degree listed in the application materials submitted. Copies of transcript(s) must be provided prior to the start of employment. In addition, the final candidate may be required to verify other credentials listed in application materials. Failure to provide official transcript(s) or other required verification might result in the withdrawal of a job offer. For more information prior to submitting an application, please contact the Search Committee Chair, Dr. Venkat Allada, at: allada@mst.edu.

About the EMSE Department

The department offers BS, MS, and PhD Degrees in Engineering Management and MS and PhD degrees in Systems Engineering and is solely housed in the Engineering Management Building, with available lab, office, and classroom space. The department maintains an active research program with recent grants from funding sources such as NSF, NIH, USDOE, USDoD, USDOT, and The Boeing Company. Missouri S&T is in Rolla, Missouri, and offers abundant outdoor recreational opportunities and easy access to metropolitan areas and the beautiful Ozark Mountain region. Information about the department and university can be found at: <https://emse.mst.edu/> and <https://www.mst.edu/>.

Missouri S&T is an AA/EEO employer and does not discriminate on the basis of race, color, religion, national origin, sex, sexual orientation, gender identity, gender expression, age, disability or status as a protected veteran. Females, minorities, and persons with disabilities are encouraged to apply. The university participates in E-Verify. For more information on E-Verify, please contact DHS at: 1-888-464-4218.
