AIMS AND SCOPE

Engineering Management Journal is designed to provide practical, pertinent knowledge on the management of technology, technical professionals, and technical organizations. EMJ strives to provide value to the practice of engineering management and engineering managers. EMJ is an archival journal that facilitates both practitioners and university faculty in publishing useful articles. The primary focus is on articles that improve the practice of engineering management.

This journal accepts the following article types:

- Applied Manuscripts
- Research Articles

Dr. Smith's research interests are in the area of management systems engineering involving complex system modeling, process improvement, and performance measurement. He conducts research within a variety of applications including healthcare, transportation, new product development, and natural systems modeling. Dr. Smith serves on the board of directors for the Institute of Industrial Engineering (IIE): Society for Engineering and Management Systems and is a past board member of the American Society for Engineering Management. He is a four-time track chair for the Engineering Management Track of the IIE Annual Conference and Expo.
Dr. Jennifer Cross is currently an Associate Professor in the Department of Industrial, Manufacturing & Systems Engineering (IMSE) at Texas Tech University (TTU). She received her BS in Industrial Engineering from the University of Arkansas & her MS and PhD in Industrial & Systems Engineering from Virginia Tech, where she served as a Postdoctoral Associate in the Enterprise Engineering Research Lab. Jennifer is a member of American Society for Engineering Management, Institute of Industrial & Systems Engineers, and American Society for Engineering Education. Her research interests are primarily in the domains of organizational assessment/performance measurement, teams, and performance improvement methodologies.
Professor Simon P Philbin is Director of the Nathu Puri Institute for Engineering and Enterprise, and Professor of Engineering Management in the School of Engineering at London South Bank University. He joined LSBU in 2018 and previously worked at Imperial College London for 15 years. Prior to joining Imperial in 2003, he was at the Defence Evaluation and Research Agency (DERA) and QinetiQ, and originally worked in the field of energetic materials. He holds PhD (Brunel University) in chemistry.

He served as a Board Member of the American Society for Engineering Management (ASEM) from 2014 to 2021 and I was the 2019/20 President of ASEM. I am a Fellow of the Royal Society of Chemistry, Fellow of the American Society for Engineering Management, Fellow of the Higher Education Academy, and Distinguished Faculty of the Society of Research Administrators (SRA) International. I currently serve as Visiting Professor at the Institute of Advanced Research Gandhinagar in India, Editorial Board Member of the Journal of Research Administration (JRA) and Co-Editor-in-Chief of the Engineering Management Journal (EMJ).
6 BENEFITS OF PUBLISHING WITH US

1. Increase the discoverability and use of your research
2. Make an impact beyond the academy, reaching policymakers, practitioners, and professionals in your field
3. Freely share your work with anyone, anywhere
4. Comply with funder mandates
5. Rigorous peer review for every open access article

READY TO SUBMIT?

Taylor & Francis have submission instructions to help you through the whole submission process.

To help you improve your manuscript and prepare it for submission, Taylor & Francis provides a range of editing services.
